

Description of my financial situation and the 7 years retreat budget

Considering that :

- The duration of my retreat will be at minimum 7 years, which means I would have to raise 41 300 euros for my expenses during that period
- I need around 8000 € for the year of preparation in 2025 before my retreat begins. The expenses of this year will include : moving to Canada, Visa application, and construction of my shelter (including woodstove and furniture inside)
- My personal savings are around 35 000 € on my bank account
- My family offered me a 3000€ of financial help
- Tsadra can only support me for 3 years at the maximum .

Here is my estimated retreat budget, input and output:
