

Description of Financial Situation

July 2025

I spent my savings plus some help from family and friends to pay for the current retreat including shrine items, practice materials, health insurance and all other costs.

I have no present income and aspire to continue in retreat. My family/friends will help me with personal expenses like health insurance and such as needed.

In order to be able to stay in retreat without much disruption I would like to ask for support from Tsadra to cover the retreat costs.

Sincerely,

Robert Heinz
