Hello, my name is Cristian Fernandez. I am writing because my dharma sister Margaret wants to do a 3 years solitary retreat in the outskirts of a little town of Cuenca (Spain).

I myself have done a 2 years retreat in a little hermitage; and I admire her strength and believe it would be great to support her in this stage of the spiritual path, because with the young age of 29 she has been in a lot of group retreats, she has translated and interpreted from tibetan, done a 3 years group retreat, and also stayed for a 3 month retreat in the same hermitage where I had done my retreat previously; and is not just about her "spiritual curriculum", but I know her personally and she radiates dharma, from her renunciation as well as from her spontaneous compassion. And it would be great if you could support her, I think we need more like her for a future transmission of the experiential dharma that alleviates a little the ignorance of this good world of ours.

Thank you for your generosity,cristian
