Re: Recommendation for grant to Mr.James Wagner for three year retreat

To whom it may concern:

This letter is to attest that it has been my privilege to have MrJames Wagner as my patient and friend since 2008. I have seen him regularly since then, thus I know him well. I can attest that he is and has continually been a devoted and constant disciple of the Buddhadharma, and of the Vidyadhara Ven.Chogyam Trungpa, Rinpoche, ever since first taking refuge with him 39 years ago, in 1984. He is and always has been emotionally stable, and is currently in good health. He is a man of much compassion, and maintains a steady Dharma practice; he is intelligent, educated and accomplished. He will be a credit to the retreat he plans to enter, and his retreat will be of benefit to all beings.

Should you have any further questions, please do not hesitate to contact me directly,

Wishing you the best of health,

Emchi Shakya Dorje
Tibetan medicine physician
