Dear Director,

The following is my end of retreat report.

The first thing that comes to mind when I think about retreat is gratitude. Gratitude to all those who have traveled this path before me, especially to Garchen Rinpoche and all my teachers. I thank my family and all my benefactors for this opportunity to do long retreat.

I experienced so much learning and growth, working with the mind through both physical and mental challenges. The simple living conditions, discipline of retreat, isolation and harsh external environment offered opportunities to

let go of distractions while helping to focus the mind inward.

I became deeply inspired by the various spiritual practices methods that are so vast in scope and profound in depth. I came to see the deeper meanings in and benefits from the preliminary practices, which I see as foundational and important at all stages of the path. I felt immeasurable benefit from guru yoga, deity yoga and the bodhicitta practices which were woven deeply into all we did. And, the extended periods of time spent practicing Mahamudra and Six Yogas of Naropa were meaningful and beneficial beyond compare.

I experienced illness on retreat, which was an incredible learning experience in taking suffering onto the path. Due to illness, I had to leave retreat early. Yet, I do not feel that

anything is incomplete - I only feel I've entered the next chapter of my life committed to spiritual practice, both in and out of retreats.

This retreat experience, so hard to come by and so precious has been life-defining and deepened my commitment to the Dharma and this path to enlightenment.

With heartfelt gratitude, I thank The Tsadra Foundation for your support. I could not have engaged in retreat without it.

May all beings benefit!

Warmest wishes,

Elizabeth Frather
